Orchestra Website

We have a wonderful website at www.scisorchestra.com that includes our current information. We would really like to be able to post pictures of our current students. Since a picture is worth a thousand words, this is important for prospective students. We want to make sure that anyone who visits our site understands that this is a program designed for students to have fun while they are getting a once in a life time experience. ***We will not include names with the pictures. Take a look at the website to get an idea of what we are talking about.***

Please initial next to the statements you want us to remember:

_____ My child's picture may be posted as part of the SCIS orchestra.

_____ My child's picture may NOT be posted at all.

Do we have permission to contact your child by cell phone while we are on a school related fieldtrip if we need to contact them? YES NO
