Orchestra Website

We have a wonderful website at www.scisorchestra.com that includes our current information. We would really like to be able to post pictures of our current students. Since a picture is worth a thousand words, this is important for prospective students. We want to make sure that anyone who visits our site understands that this is a program designed for students to have fun while they are getting a once in a life time experience. ***We will not include names with the pictures.***

Please initial next to the statements you want us to remember:

_____ My child's picture may be posted on the orchestra site (individual and group).

_____ My child's picture may ONLY be posted in a large group picture (not individually)
